Eco-friendly Deepavali Celebration- 13- 10-2017

- 1.** The festival of lights, **Deepavali**, celebrates the *victory of good over evil* and the *conquest of light over darkness*. This festival, if celebrated in the traditional sense has little to do with fireworks. So, instead of polluting the environment with them, an urge to celebrate an **eco-friendly Deepavali** is the need of the hour. Keeping this objective in mind, **the Society for Environment and NSS Society's** volunteers of the college organized a '**Clean and Green Deepavali**' event. The programme started with a **Street Play** under the same theme, which was followed by a rally from the college to Malviya Nagar market and way back. The college premise was beautifully decorated with *earthen diyas* and *rangoli*. The students, faculty and staff members also **pledged** to celebrate a smokeless Deepavali.
- 2. Parivartan 2K18 13th April, 2018:** The NSS Unit and **Prithivi- Society for Environment**, of Sri Aurobindo College organised its annual fest "**Parivartan 2K18**" on 13th April, 2018 in the college campus. The main aim of the fest was to connect to the society with particular emphasis on promoting awareness amongst the students and interest in the environment, social responsibility and community services. The occasion was graced by one of the most prominent personalities of Jawaharlal Lal Nehru University, **Professor K.G. Saxena** as chief guest
